Regional Transportation Project Approved in Glendale. The Maricopa Association of Governments (MAG) recently unanimously approved \$15.5 million of funding for the high occupancy vehicle (HOV) ramps at Loop 101 and Maryland Avenue in Glendale. The project was brought forward by Glendale to MAG. While regional funding from MAG has been approved for the project, the proposal goes next to the State Transportation Board to approve the use of the state funds.

This project will connect Maryland Avenue to the newly-completed HOV lanes along Loop 101, alleviating congestion in the area and providing for more efficient traffic circulation to and from events in Glendale's Sports and Entertainment District. In addition to providing another point of vehicular access to regional travelers on Loop 101, these HOV lanes and ramps will also benefit bus routes utilizing Loop 101 and the Park & Ride facility at Glendale and 99th avenues.

The project is scheduled to be completed by February 2015, in time for the Super Bowl, when tens of thousands of fans will attend the game at University of Phoenix Stadium and many more will visit the NFL Experience.

For more information, call the Glendale Transportation Department at 623-930-2940.
